WORK EXPERIENCE

WORKING STUDENT – PRODUCT TESTING & SOFTWARE AUTOMATION ENGINEER – NODI KIDS GMBH – 11/2025 – 04/2026 – BERLIN, GERMANY

- Developed and executed automated test scripts using Python to validate software functionality and performance.
- Performed functional, regression, integration, and API testing to ensure software quality and reliability.
- Worked with REST APIs, Linux environments, and backend services to validate system integrations.
- Supported software development and automation workflows in Agile (Scrum) teams.
- Contributed to improving application performance, software quality, and process efficiency.

ASSOCIATE QUALITY ASSURANCE ENGINEER – CLARIVATE ANALYTICS – 08/2023 – 03/2025 – BANGALORE, INDIA

- Designed and executed manual and automated test cases for web applications and REST APIs.
- Developed UI and API automation frameworks using Selenium, RestAssured, and Cucumber (BDD).
- Performed system analysis, defect tracking, and root cause analysis using Jira.
- Collaborated with cross-functional Agile teams to deliver high-quality software solutions.
- Contributed to test planning, process improvement, and software release validation.

PROJECTS

Vision Pipeline (Featured Project)

Technologies: Python, YOLO, OpenCV, FastAPI, Docker

- Designed and developed an end-to-end computer vision pipeline using YOLO and OpenCV.
- Built scalable FastAPI services for image processing and AI inference.
- Containerized the application using Docker for deployment.
- Implemented image preprocessing techniques to improve object detection performance.

DocMind AI

Technologies: Python, FastAPI, LLM, RAG

- Developed an AI-powered document assistant using LLMs and Retrieval-Augmented Generation (RAG).
- Implemented intelligent document retrieval and contextual question answering.
- Designed FastAPI backend services for document processing.
- Integrated semantic search using vector embeddings to improve document retrieval accuracy.

Smart Farmer Assistant

Technologies: Python, Rasa, NLP, REST APIs

- Built an AI chatbot providing weather forecasts and agricultural recommendations.
- Developed conversational workflows using Rasa and NLP.
- Integrated external REST APIs for real-time assistance.
- Designed intent-based conversational flows to deliver personalized farming recommendations.

● **EDUCATION AND TRAINING**

04/2025 – CURRENT Berlin, Germany
MASTERS IN SCIENCE International University Of Applied Sciences

Field of study Software and applications development and analysis

08/2019 – 06/2023 Bangalore, India
BACHELORS IN ENGINEERING Nagarjuna College of Engineering and Technology

Field of study Information Science and Technology

● **SKILLS**

Artificial Intelligence & Machine Learning

Machine Learning • Deep Learning • Computer Vision • NLP • LLMs • RAG

Programming

Python • Java • SQL

Frameworks & Libraries

FastAPI • Flask • OpenCV • Rasa • PyTorch • Pandas • NumPy • Scikit-learn

Software Testing & Automation

Selenium • RestAssured • Postman • UI Automation • API Testing • Regression Testing

Tools

Git • GitHub • Docker • Linux • Jira

Frameworks & Libraries

Agile (Scrum) • BDD • SDLC • STLC

● **LANGUAGE SKILLS**

Mother tongue(s): **ENGLISH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
